

ALEXANDRA BEBIS

SKILLS:

- Java
- C++
- MS Office
- Premiere Pro
- Illustrator
- Photoshop
- Procreate
- Entry-level HTML/CSS
- Digital Design

PROFILE

I am currently in my third year of college pursuing a bachelor's degree in Computer Science. I am eager to learn more about programming, even in my free time as a hobby, and I am dedicated to solving any issues I may come across. I like to create detailed plans so that I can ensure I am on the right track. I would like to learn more about UX Development/Design. My GPA ranges from 3.5 to 4.0, and I do just as well working as a team as I do on my own.

EXPERIENCE

Current Position: Organizational Development Intern, Scot Forge, Spring Grove, IL - 2021

In charge of writing scripts, recording voice overs, and editing videos. I am also responsible for minor animations that were necessary in our company training videos using Adobe Illustrator and Photoshop.

Receptionist, Aronson Fence Co., Wauconda, IL - 2018

The basic duties of this job were setting appointments, answering calls, and emailing within the office and to customers.

Warehouse Processor, American Girl, Wilmot, IL - 2017

This was a seasonal position for the winter. Basic duties included packaging orders, stacking and prepping pallets for shipment, and stocking the picking area.
